

# EKYFLEX NODOLOX

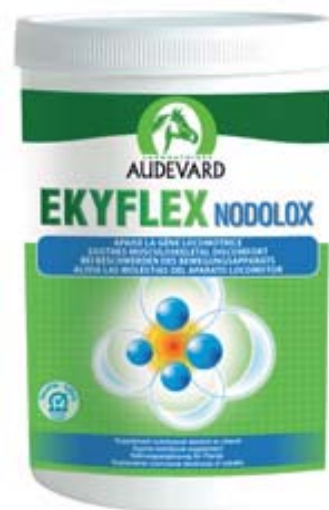

## Soothes musculoskeletal discomfort

Regardless of the activities that horses are involved in (sport, racing, hacking...) their musculoskeletal system and vertebral column undergo numerous stresses. Inflammation linked to these efforts generates chronic pain which needs to be managed.

EKYFLEX NODOLOX is a natural product made from plants renowned for their anti-inflammatory properties.

### Uses

Relief for the musculoskeletal system (fore and hind limbs) and vertebral column (cervical spine, thoracic spine, lumbar spine, pelvis).

### Composition /kg

White Willow	6,67%	Boswellia serrata	2,17%	Quercetin	0,55%
Omega 3 EFA	1g				

### Instructions for use:

- Short term: give 60g per day for 10 days.
- Long term: give 30g per day. EKYFLEX NODOLOX can be used throughout the year.

EKYFLEX NODOLOX is a nutritional supplement. This product can provide relief for horses presenting with lameness or signs of musculoskeletal or spinal discomfort. The administration of this product must be accompanied by advice from your vet who will advise you on the most suitable product from the Ekyflex range.
