

# EKYFLEX REPAIR

## Joint protection

### Nutritional supplement intended for athletic horses or horses followed for joint disorders

EKYFLEX Repair has a 3 fold effect on the joint :

- 1-FLEXIBILITY : Contains large amount of a phytotherapeutic ABF complex, Hyaluronic acid and Omega-3 that efficiently accompany pain treatment and helps lubricate the joints.
- 2-CARTILAGE SYNTHESIS : Chondroitin, glucosamin, glycuronic acid, MSM and other catalyst elements necessary to stimulate the cartilage synthesis.
- 3-JOINT PROTECTION : Antioxidants, trace elements and amino acids promote muscles and tendons functions, optimising the joint's shock absorber role.

### AUDEVARD guarantees and assurance:

- Selection of Nutrigenomic nutrients contributing to the inhibition of the enzyme that breaks cartilage down and to the stimulation of collagen synthesis, and the production of antioxidant enzymes.
- Nutrients selected for their purity and adapted molecular weight in order to guarantee improved bioavailability.
- Marine chondroitin.
- Biosynthesised hyaluronic acid.
- Trace elements in chelate compound form.
- Application of the AUDEVARD anti-doping Programme (ADP).

### Composition for 1 kg

Hyaluronic Acid	3 400 mg	Sulfur	42 400 mg	Lysin	30 000 mg
pure Glucosamine*	200 000 mg	Manganese	8 330 mg	Methionin	29 160 mg
pure Chondroitin**	80 000 mg	Zinc	6 660 mg	Cholin	10 000 mg
Bromelain	16 667 mg	Iron	3 330 mg	Vitamin C	33 330 mg
Boswellia serrata	330 mg	Copper	1 660 mg	Vitamin E	4 160 mg
Omega-3 Fatty Acids (EPA)	16 660 mg	Selenium	25 mg	Vitamin B6	250 mg
Glucuronic acid	5 000 mg				

\* Glucosamine HCL \*\* Condroitin sulphate

### Directions for use

#### 1 measure = 30g for pellets or 50ml for liquid

- Prevention in healthy athletic horses: 1 measure per day for 2 months. At least 3 times a year.
- Athletes followed for joint disorders:
  - Initial dose: 2 measures per day for 1 month.
  - Maintenance dose : 1 measure per day for 4 to 6 months. At least 2 times a year.
- Elderly horses :
  - Initial dose : 1 measure per day for 2 months.
  - Maintenance dose : 1 measure per day for life. Doses should be adapted to the horse's stiffness.
- Foal:
  - Initial dose: 10 g per 100 kg live weight per day for 1 month.
  - Maintenance dose: 5 g per 100 kg live weight / day.

### Presentations

- 1kg box – EAN 3515657913285. Provides up to 1 month of use for an adult horse.
- 2kg box – EAN 3515657913278. Provides up to 2 months of use for an adult horse.
- 14kg drum – EAN 3515657933634. Provides up to 14 months of use for an adult horse.
- 1L jug – EAN 3515657892177. Provides up to 20 days of use for an adult horse.
